DETAILED ACTION

1. This office action is in response to applicant's amendment filed 3/26/04, wherein claim 1 was amendment.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1 and 3-5 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 14-20 of copending Application No. 10/050,085. Although the conflicting claims are not identical, they are not patentably distinct from each other because they only differ in claim terminology but encompass the same subject matter, i.e. claims 14-20 anticipate the claims 1 and 3-5 of instant application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

4. Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 3/26/04 have been fully considered but they are not persuasive.

Applicant contends that the above double patenting rejection is improper because claims 1 and 3-5 of the instant application call for "a safety system including one or more support arms" such that the support arms are "configured to move the brake member in a substantially arcuate path about the elongate central axis of the arbor" while claims 14-20 of '085 do not teach these limitations. However, the examiner respectfully disagrees. It should be noted that one cannot only look at the independent claims to determine double patenting but rather at all of the claims together. In this case, claims 14-20 call for at least one linkage assembly to couple the brake member to the housing wherein the linkage assembly is configured to move the brake member in an arcuate path about the blade. Surely, the expression "linkage assembly" includes a link and the term "arm" is no different than the term link. In of words, a link of a linkage assembly can surely be called an arm. There is no structural difference between the two.

6. For the reasons above, the grounds of rejection are deemed proper.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
